Farm Loans.

To the people of Sedgwick and adjoining counties we wish to say that our office is head-quarters for cheap and satisfactory real estate loans. We obtain money direct from Eastern capitalists, and can, therefore, make loans at lower rates than parties getting their money second or third-banded. Principal and interest are paid at our office. Money always on hand, and no delays if your title is all sraight. We rather make a specialty of this loaning business, and horrowers will do well to call and get rates or talk loans, and see how it is that we can make loans quicker than anybody elso, when title is all clean. There is one thing that is very estisfactory to us, and speaks well for our manner of doing business, and that is. Those men who borrowed of us five years ago almost invariably come to us to make new loans, in case they need renewals. They are sentisfied to deal with us again. We aim to be accumadating in this line of business, as well
